**j. Impairment of Assets:**

The carrying amount of assets are reviewed at each balance sheet date to determine whether there is any indication of impairment based on internal/external factors. An impairment loss is recognized wherever the carrying amount of an assets exceeds its recoverable amount which represents the greater of the net selling price and "value in use" of the assets. The estimated future cash flows considered for determining the value in use, are discounted to their present value at the weighted average cost of capital.

After impairment , depreciation is provided on the revised carrying amount of the assets over its remaining useful life.

**k Taxation.**

Income Tax Expenses is accounted for in accordance with AS-22' Accounting for Taxes on Income' which include Current Tax and Deferred Taxes. Deferred Tax reflect the impact of current Year timing difference between Taxable Income and Accounting Income for the Year and reversal of timing difference of earlier Years. Deferred Tax Assets are recognized only to the extent that there is virtual certainty supported by convincing evidence that sufficient future Taxable Income will be available against which such Deferred Tax Assets can be realised.

**l. Retirement benefits to employees:**

The Company contributes to Employee Provident fund scheme, a defined benefit plan for the employees.

**m. Earning per share:**

Basic earning per share is computed by dividing the net profit after tax by the weighted average number of equity shares outstanding during the period. Diluted earnings per share is computed by dividing the profit after tax by the weighted average number of equity shares considered for deriving basic earnings per share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares.

**n.** The Financial statements and notes on accounts have been prepared as per the Companies Act'2013 as effective from 01.04.2014
